

Black eyebrows, brown eyes,  
Dark as night, clear as day!  
Oh, eyes, eyes, girl's eyes,  
Where did you learn to seduce people?

You are not there, but you are like here  
Shine in the soul like two stars.  
Do you have some poison poured into you,  
Are you really a healer?

Black eyebrows – silk ribbons,  
I would love only you.  
Brown eyes, girlish eyes,  
I would only look at you!

Black eyebrows, brown eyes!  
It's scary to look at you all the time:  
You will not sleep during the day or at night,  
Everything will be thinking about you, eyes.
